## About This Game

*To play, simply search the rooms for the flaw, when found click to continue to the next, tougher problem.*

.....

Controls:

Left click to select objects

Right click or Arrow keys to move the camera

Scroll to zoom.

Best played in full screen (F1 on desktop)

Quit game with ESC

.....

Stuck in an endless loop, you begin to lose touch with your reality. Is your mind playing tricks on you? Or is it this place?

If you can break the cycle maybe you can find freedom.

---

.....

Fidelity is a reality bending puzzle game where you must break free from your loop by finding all the flaws in your surroundings.

With progressively difficult stages and a random selection system, no two playthroughs will be the same.

.....

---

Pitiable trash crashes on attempts to load, with or without patch. Computer in use is 8GB RAM laptop capable of running DoTA2 at medium settings.

Do not buy.. \u2b50\u2b50\u2b50\u2b50. This is one of my favorite NASCAR games I have played yet. I love having the option to fine tune the AI difficulty and the career mode is absolutely addicting. Starting off in the dirt series is awesome. I have noticed a lot of people complaining about their wheels not working but I have a Logitech G920 wheel with FF and it works wonderfully. Online multiplayer is pretty dead though.

If you are a fan of NASCAR and want a solid racing game, I can't recommend this game enough. The graphics may not be on par with current AAA titles but they are solid. Audio may sound a little weird at times but it doesn't really bother me. Most of the time, I am so enticed with the race and focused on hitting my marks that I don't even notice it.

9.5\10. I rarely give bad reviews for games, but I have to this time due to the terrible controls for the Oculus Rift Touch controllers. Next to impossible to pick up anything. If you find that you finally do, it's clunky. Fix the controls and I'll try again.

Review Update - 22-2-2019:

So I gave this game another try after the developer posted an update.

PROS:

- 1) The update definitely improved game play for the Oculus Rift. The game seems far more stable now.
- 2) I found picking up items FAR easier to do.
- 3) Interacting with the world was really nice. More interaction with the world would be nice.

CONS:

- 1) I'm still not sure why it's called "Bully Store". It doesn't quite translate. It's just a cooking sim. Should rename it to something more appropriate. The name just doesn't fit, in my opinion. It's actually a bit misleading.
- 2) Not a lot of interaction with the world & not a lot of food combinations. Which, in turn, makes the game fun for about 20 minutes and it's over.

Wishes:

- 1) More interaction with the world with more food ingredient combos.
- 2) Add the ability for a 2nd player to help.

I have to say that I am quite happy with the update. Well done. Keep up w\ the updates.. I was dubious when I saw the price, I mean how could anything good be this cheap?

Then I played the game. It is fantastic. It plays smoothly, isn't the buggy horror show that the recent X-series games have been, and scratches that itch perfectly. The game is easy to get into, not too "grindy", and generally is a very pleasant (if slightly addictive) game that I feel is great value for money.

It is nice to play a game for once where I felt that I got a great deal.. Well, a low price for a medium-quality game. It's basically just cutscenes in cartoon style interspersed with HOGs. The HOGs are somewhat repetitive, same objects to be found and so on. You can breeze right through this game, it won't take you more than an hour. Characters are very cliché . All in all, nice time waster, but don't expect any quality.. Io feels and plays quite different. The looks are amazing as well.. Played this game a while back and even completed it, I only came back to this because I saw it had an update. Can't say much has changed besides the new first-person mode (I kinda like it) and the **f\*ck-sh\*t-ton of filler achievements (seriously what the hell)**

**Other than that, it's an average rigid-body car game. 7\10. I'm so glad for the DLC. Bohemia Interactive proved they**

---

are not abandon single players. All other publishers and devs do everything for multi, so it's very good somebody care with us too.

I love these well made, challenging mini-campaigns. I enjoy every minutes of the spacial mood of these.

---

Why the hell didnt the porters of this game didnt made it for windows crossplatforms?. HELP ME RAISE THIS ONCE BEUTIFUL GAME FROM THE GRAVE AND WE SHALL RELIVE THE GLORY THAT IS OMEGALODON.

\u00a1Recomiendo altamente este juego! Solia \u200b\u200bjugarlo en el d\u00eda (torrent).

Ni siquiera sabia que este juego estaba incluso aqui. Habria tenido muchas horas en esto.

Un juego tan divertido \u00a1compralo!. I like it. Its fun to play vs friends.. amazing game. revolutionary. the ability to punch astounded me, and then i found out you could kick too. i've never seen a game with this much depth.
